

MUSTAPHA ABDULBASIT OLAMIDE

Frontend Engineer · React · Next.js · TypeScript · Node.js

abdulbasitmustapha1@gmail.com · +234 814 289 0938 · Trier, Germany LinkedIn · GitHub · Portfolio

PROFESSIONAL SUMMARY

Frontend Engineer with three years of production experience building scalable, user centric web applications across fintech, HR, and enterprise domains. Deep expertise in React, Next.js, and TypeScript, with proven full stack fluency through Node.js and REST API integration. Track record of shipping multi service platforms and driving measurable business outcomes, including a 35% increase in transaction success rate and 20% growth in returning users.

TECHNICAL SKILLS

Core Stack: React, Next.js, TypeScript, JavaScript (ES2023), Node.js, Express.js

UI & Styling: Tailwind CSS, Mantine UI, Chakra UI, Bootstrap, Framer Motion, responsive and mobile first design

State & Data: React Query, Redux, Zustand, Axios, REST API integration

Engineering Practices: Component based architecture, design systems, performance optimisation, accessibility (WCAG), frontend web security, Agile/Scrum, Git and GitHub, code review

Currently Exploring: Golang, PostgreSQL, Kubernetes, AWS, microservice architecture, event driven systems

PROFESSIONAL EXPERIENCE

Frontend Engineer — Geotopup Technology Solutions

Dec 2023 – Feb 2026

- ▶ Architected and shipped a multi service utility payment platform covering electricity, airtime, internet, and cable TV using React and Next.js, increasing transaction success rate by 35% and cutting user complaints by 25%.
- ▶ Implemented wallet funding and transaction history features with real time REST API integration, driving 20% growth in returning users within three months.
- ▶ Designed a reusable component library for a centralised dashboard, improving development speed and consistency across payment modules.
- ▶ Collaborated daily with backend engineers to integrate secure multi gateway APIs, gaining hands on exposure to service to service communication patterns.
- ▶ Contributed to Celergate, an open banking integration and payout module, building TypeScript first React interfaces for B2B financial flows.
- ▶ Participated in digital HR system design covering leave management, onboarding, and employee data tracking, coordinating across product, design, and backend teams.

IT Intern — Frontend — Geotopup Technology Solutions

May 2023 – Dec 2023

- ▶ Developed scalable React components for an internal ticketing tool featuring real time task tracking, calendar views, and integrated chat.
- ▶ Built the interactive UI for an AI powered commodity grading system integrated with mobile computer vision, deepening experience with complex data driven interfaces.
- ▶ Maintained application state consistency using Zustand and Redux across sensitive HR and budgeting workflows, ensuring data integrity at scale.

Computer Science Teacher (NYSC) — Temitope Secondary School

Dec 2022 – Nov 2023

- ▶ Designed and delivered Computer Science and ICT curricula to over 30 senior students, improving the average pass rate by 15%.
- ▶ Mentored 25 students in a coding club, resulting in two functional web applications built for the school's administrative use.

EDUCATION & CERTIFICATIONS

B.Sc. Political Science — Ekiti State University, Nigeria, 2022

Fullstack Web Development Certificate — Larva Tech Academy, Feb 2025 – Dec 2025

Responsive Web Design — freeCodeCamp, 2023

Introduction to HTML5 — University of Michigan / Coursera, 2023

LANGUAGES

English — Native / full professional proficiency

German — A1 (beginner, actively learning)
