PROFESSIONAL SUMMARY

Frontend Engineer with 3+ years of production experience building scalable, user-centric web applications in Fintech, HR, and Enterprise domains. Deep expertise in React, Next.js, and TypeScript — the core frontend stack at Zalando. Proven track record of shipping multi-service platforms, driving measurable business outcomes (35% increase in transaction success rates, 20% growth in returning users), and collaborating tightly with cross-functional teams. Currently based in Germany and eager to bring disciplined component architecture and a sharp UX sensibility to Zalando's Stores Experiences & Clearance Solutions team.

TECHNICAL SKILLS

Core Stack

React · Next.js · TypeScript · Node.js · Express.js · JavaScript (ES2023)

UI & Styling

Tailwind CSS · Mantine UI · Chakra UI · Bootstrap · Framer Motion · Responsive & Mobile-First Design

State & Data

React Query · Redux · Zustand · Axios · REST API Integration

Engineering Practices

Component-Based Architecture · Design Systems · Performance Optimisation · Accessibility (WCAG) · Frontend Web Security · Agile / Scrum · Git & GitHub · Code Review

Currently Exploring

Golang · PostgreSQL · Kubernetes · AWS · Microservice Architecture · Event-Driven Systems

PROFESSIONAL EXPERIENCE

Frontend Engineer | Geotopup Technology Solutions

Ibadan, Nigeria · December 2023 – February 2026

- ▶ Architected and shipped a multi-service utility payment platform (electricity, airtime, internet, cable TV) using React and Next.js, increasing transaction success rate by 35% and cutting user complaints by 25%.
- ▶ Implemented wallet funding and transaction history features with real-time REST API integration, driving 20% growth in returning users within three months.
- ▶ Designed a reusable component library for a centralised dashboard, improving development speed and consistency across payment modules.
- ▶ Collaborated daily with backend engineers to integrate secure multi-gateway APIs — gaining hands-on exposure to service-to-service communication patterns.
- ▶ Contributed to Celergate (Endoz open-banking integration & Disbuz payout module), building TypeScript-first React interfaces for seamless B2B financial flows.
- ▶ Participated in digital HR system design covering leave management, onboarding, and employee data tracking — coordinating across product, design, and backend teams.

IT Intern — Frontend | Geotopup Technology Solutions

Remote · May 2023 – December 2023

- ▶ Developed scalable React components for an internal ticketing tool featuring real-time task tracking, calendar views, and integrated chat.
- ▶ Built interactive UI for CGS, an AI-powered commodity grading system integrated with mobile computer vision — deepening experience with complex data-driven interfaces.
- ▶ Maintained application state consistency using Zustand and Redux across sensitive HR and budgeting workflows, ensuring data integrity at scale.

Computer Science Teacher (NYSC) | Temitope Secondary School

Ilorin, Nigeria · December 2022 – November 2023

- ▶ Designed and delivered curricula for Computer Science & ICT to 30+ senior students; improved average pass rate by 15%.
- ▶ Mentored 25 students in a coding club, resulting in two functional web applications built for the school's administrative use.

EDUCATION & CERTIFICATIONS

B.Sc. Political Science · Ekiti State University, Nigeria · 2022

Fullstack Web Development · Larva Tech Academy · Feb 2025 – Dec 2025 · **Certificate Awarded**

Responsive Web Design · freeCodeCamp · 2023

Introduction to HTML · University of Michigan / Coursera · 2023

LANGUAGES

English — Native / Full Professional Proficiency

German — A1 (Beginner, actively learning)
